An Update on Falun Dafa Worldwide

VOLUME 2 ISSUE 7 FEBRUARY 22, 2007

Evidence Suggests China Has a Large Live Organ Bank

(Clearwisdom.net) On January 31, independent investigators David Kilgour and David Matas published the revised version of their report on organ harvesting, "Bloody Harvest - Revised Report into Allegations of Organ Harvesting of Falun Gong Practitioners in China." The revised report confirmed allegations that China has a large live organ bank and the victims are mostly illegally detained Falun Gong practitioners.

According to the Kilgour and Matas report, the China International Transplantation Assistance Centre website says, "It may take only one week to find out the suitable (kidney) donor, the maximum time being one month... If something wrong with the donor's organ happens, the patient will have the option to be offered another organ donor and have the operation again in one week." Organ waiting time in other countries is typically far more than a year. "The astonishingly short waiting times advertised for perfectly-matched organs would suggest the existence of a large bank of live prospective 'donors'."

The Sanxiang Metropolitan News on June 10, 2006, stated that China "has performed more than 85,000 organ transplants, cumulatively." The Transplant Society of the Chinese Medical Association said, "In the past few years, we have performed over 10,000 transplant surgeries annually and set a new record in 2005 by completing more than 12,000 transplants."

The Kilgour and Matas report concluded that a large number of illegally detained Falun Gong practitioners have unwillingly become organ sources. For example, from 2000 to 2005 (the persecution of Falun Gong began in 1999), there were 41,500 organ transplants with unexplained sources of organs. The revised report also included concrete evidence to show that the total number of organ transplant centers and hospitals dramatically increased after the persecution of Falun Gong began. "There were only 22 liver transplant centres operating across China before 1999 and 500 in mid-April, 2006. The number of kidney transplantation institutions increased from 106 in 2001 to 368 in 2005.

The report stated, "The Chinese authorities, to build these dedicated organ transplant institutions, must have the confidence that there exists now and into the foreseeable future a ready source of organs from people who are alive now and will be dead tomorrow. Who are these people? A large prison population of Falun Gong practitioners provides an answer."

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-

Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the brutal most and persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles Truthfulness-Compassion-Forbearance.

About Clearwisdom

Clearwisdom.net is the most authoritative source of information about the practice of Falun Gong and about the persecution of Falun Gong in China, reporting and timely news events happening inside China as well as from the more than 70 countries around the world where Falun Gong is practiced. Clearwisdom publishes responsibly experiences and understandings of practitioners themselves, who submit the majority of the articles.

Rally Held in San Francisco to Support 18 Million Withdrawals from the Chinese Communist Party

(Clearwisdom.net) On February 3, 2007, the Service Center for Quitting the Party in northern California held a rally in San Francisco's Chinatown to support the movement in which 18 million people have withdrawn from the Chinese Communist Party (CCP). Attendees also condemned the CCP for harvesting organs from living Falun Gong practitioners for profit.

Mr. Ma Youzhi, the organizer of the rally, said that while people are celebrating quitting the party, he also feels sad, because the Chinese people have been enslaved by the CCP for too long and many of them have been murdered by the CCP. Even now, Chinese people are still under the CCP's control. Mr. Ma asked why, when people in many countries have already abandoned communism, Chinese people still have to suffer under it. Mr. Ma said: "We are very happy that 18 million Chinese people have already awakened. This means that the day when Chinese people break through the CCP's domination is coming soon."

I Am So Grateful That I Was Introduced To Falun Dafa

(Clearwisdom.net) I am 38 years old and I am an Assistant Professor at Çağ University in Turkey. Before, I was a lawyer and a judge. I am probably the most skeptical person in the world when it comes to beliefs. I look for evidence and insist on tangible signs. When I read the book *Zhuan Falun*, the principal text of Falun Dafa, I felt that everything that I had seen in the world was evidence for what is described in this book about "Truthfulness, Compassion, Forbearance."

Since becoming a Falun Dafa cultivator I have noticed that after years of suffering from medical problems with my back, my back is now practically pain-free. I am more peaceful. I no longer yell at my children and am less emotional. I have become the person I always wanted to be. Falun Dafa is more than emotional peace. "Truthfulness, Compassion, Forbearance" symbolizes everything I ever wanted to be. Falun Dafa gave me the knowledge I needed to learn about life and how to live meaningfully.

I now teach human rights to university students. I teach them about the atrocities committed against Falun Dafa practitioners in China, and I do the best I can to educate people from the perspective of my profession. I now feel like I have my direction laid out for me, and I know where I am heading. I am so grateful that I was introduced to Falun Dafa.

How the Guards Forced a Practitioner to Renounce Her Belief

(Clearwisdom.net) On the evening of November 6, 2006, prison guard Liu Baibing (female) at the Wanjia Labor Camp in Heilongjiang Province ordered Dafa practitioner Ms. Qi Jinling to say things against Dafa. Ms. Qi Jinling refused. Guard Liu Baibing was furious and said, "Fine! I'll make you write guarantee statements [statements renouncing Dafa] even if I lose my job!" Liu savagely beat Ms. Qi and said, "We have beaten lots of Falun Gong practitioners to death since 2001! You would be just one more statistic!" She hit Ms. Qi's head and face with police batons and punched her chest. Guard Guo Qiuli (female) shocked Ms. Qi's face with electric batons while guards Wang Na, Sha Yujin, and two others beat and kicked Ms. Qi. Guard Sha Yujin grabbed Ms. Qi's hair and yanked out several tufts of hair.

The guards tortured Ms. Qi until noon the next day. She finally wrote guarantee statements before they let her return to the workshop. During the whole time of the gross abuse they didn't let her use the restroom. Ms. Qi had no choice but to relieve herself in her pants. Ms. Qi's face, nose and eyes were black and blue from the beating and her face was swollen. Ms. Qi's chest and legs hurt terribly from the torture. Despite her condition, the guards still forced her to make 500 paper bags a day.
